PROFESSIONAL SUMMARY

B.E. Computer Engineering student with a 9.6/10 SGPA who enjoys building software that solves real-world problems. Hands-on experience in full-stack development, Android development, AI, and databases through internships and independent projects. Built solutions including an AI-powered multilingual legal assistant and a blockchain-based milk traceability platform. Finalist among 500+ teams at Pune Agri Hackathon International 2026.

TECHNICAL SKILLS

Front-End: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, TailwindCSS, Bootstrap, Chart.js

Back-End: Node.js, Express.js, Python (FastAPI, Flask), Java (Servlets, JSP), PHP, RESTful APIs, WebSockets, Socket.io, JWT Authentication, RBAC, Microservices

Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis, Supabase, Firebase, Prisma ORM

DevOps & Tooling: Docker, GitHub Actions (CI/CD), Git, GitHub, Postman, Netlify, Render, Vercel, Oracle Cloud (OCI)

AI / ML: Scikit-learn, PyTorch, Pandas, NumPy, NLTK, OpenCV, MediaPipe, NLP, Recommendation Systems, CNNs, Retrieval-Augmented Generation (RAG), OpenAI and Gemini APIs, CrewAI

Testing & Practices: Unit and Integration Testing (Vitest, Supertest), Code Reviews, OOP, MVC, Agile/Scrum

Languages: Java, Python, JavaScript, TypeScript, SQL, PHP, C, C++

WORK EXPERIENCE

Sunbeam Infotech Pvt. Ltd. | MERN Stack Developer Intern

Jan 2026 – Feb 2026

Pune, Maharashtra

- Developed a role-based **Online Course Portal** end to end on the MERN stack (MongoDB, Express.js, React.js, Node.js), with an admin dashboard for 50+ courses, recorded-lecture access, and progress tracking for 100+ active students.
- Designed and normalized MySQL and MongoDB schemas and built 8 RESTful API endpoints, reducing average data-retrieval time by 30% through query and schema optimization.
- Implemented JWT authentication with a Role-Based Access Control (RBAC) authorization layer and middleware, securing student and admin data across all endpoints.
- Built 10 reusable, responsive React.js components with protected routes, improving page-load performance by 25% across mobile and desktop.
- Analyzed user-engagement data with Python and Pandas to build course-completion reports and activity dashboards.
- Collaborated in an Agile team of 5 developers through daily stand-ups, sprint planning, and Git-based code reviews, documenting API endpoints in Postman and README files and delivering all assigned features on schedule.

MES Wadia College of Engineering | Research Intern

Jan 2026 – Feb 2026

Pune, Maharashtra

- Conducted a literature review and analysis on the effects of heat stress on the human neuroendocrine system.
- Contributed to research analysis, technical documentation, and a research paper submitted by the faculty mentor.

Microdynamic Software Pvt. Ltd. | Android Development Intern

Jun 2023 – Jul 2023

Pune, Maharashtra

- Developed and tested 3 Android application modules in Java (Android Studio) for a live client-facing app serving 500+ end users, delivering all modules within a 6-week timeline with zero critical defects at launch.
- Integrated REST API endpoints for real-time data synchronization between the app and backend server, reducing data latency by 50%.
- Identified and resolved 15 bugs through systematic debugging and collaborative code reviews, reducing the application crash rate by 40%.
- Built Material Design UI components that render consistently across 10+ screen sizes.

PROJECTS

Smart Stadium OS | [GitHub](#) — Operations platform with 16 role-based modules (ticketing, tournaments, crowd, security, maintenance, analytics) on PostgreSQL via Prisma ORM. Implemented JWT authentication with refresh-token rotation and reuse detection, RBAC, and HMAC-signed QR tickets, plus a GitHub Actions CI/CD pipeline running 400+ unit and integration tests. *Tech: React, TypeScript, Node.js, Express, Prisma, PostgreSQL, Docker, Vitest, Supertest*

NyaySathi AI | [GitHub](#) | [Live Demo](#) — AI legal-help assistant giving cited, plain-language legal information in English, Hindi, and Marathi, with cited Q&A, a document simplifier, an RTI and legal-notice drafter, and a free legal-aid finder. Built BM25 retrieval over an official-source legal corpus feeding streamed Gemini answers, with Zod validation, PII redaction, a prompt-injection guard, per-IP rate limiting, LRU caching with in-flight request deduplication, and 104 tests in GitHub Actions CI. *Tech: Next.js 14, TypeScript, Tailwind CSS, Gemini 2.0 Flash, Zod, Vitest, GitHub Actions*

DRONA AI | [GitHub](#) | [Live Demo](#) — Multi-agent examination integrity platform with 6 agents spanning proctoring, fraud detection, paper generation, analytics, alerting, and fairness auditing. Built an event-driven back-end with real-time WebSocket alerts, a two-stage proctoring pipeline (MediaPipe FaceMesh screening before OpenAI Vision) that cuts cloud inference cost, and SHA-256 seeded per-student question papers, secured with JWT, RBAC, and bcrypt. *Tech: FastAPI, React, TypeScript, PostgreSQL, WebSockets, CrewAI, OpenAI Vision, MediaPipe*

SmartShetakari | [GitHub](#) — Developed a blockchain-based milk traceability system that maintains immutable, batch-level records from farmer collection through processing, additive tracking, and final customer delivery, enabling transparent end-to-end supply-chain verification. *Tech: Blockchain, Python, React.js, Node.js*

SmartHire AI | [Live Demo](#) — Placement preparation platform with mock interviews, ATS resume scoring, job tracking, and real-time Socket.io dashboards on microservices, with Gemini-generated interview feedback and Redis caching keeping hot-path APIs under about 200 ms in testing. *Tech: React.js, Node.js, MongoDB, Redis, Socket.io, Gemini AI*

EDUCATION

Modern Education Society's Wadia College of Engineering, Pune Aug 2024 – May 2027
Bachelor of Engineering in Computer Engineering (Savitribai Phule Pune University) | *SGPA: 9.6 / 10*

Government Residence Women's Polytechnic, Tasgaon Aug 2021 – Jun 2024
Diploma in Computer Engineering (MSBTE) | *Percentage: 90.41%*

Siddheshwar High School, Pimprad Jun 2021
SSC (Secondary School Certificate), Maharashtra State Board | *Percentage: 92.60%*

ACHIEVEMENTS & LEADERSHIP

- **Pune Agri Hackathon International 2026** — Top 15 Finalist and Team Lead among 500+ international teams; owned the technical architecture and presented to an international judging panel
- **PromptWars Virtual 2026** (Google for Developers × Hack2skill) — Top 400 among 46,000+ participants
- **Smart India Hackathon 2025** | **ISRO Bharatiya Antariksh Hackathon 2025** — National Hackathon Representative
- **ELECTROVERT 2023-24, Walchand College of Engineering, Sangli** — Finalist, Mock Placement Drive
- **Technovation 2K23** (State Level Technical Symposium, Government Polytechnic, Karad) — Event Coordinator
- **Shekunj** — Campus Ambassador (Student Outreach & Promotion)

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services | Oracle Cloud Infrastructure (OCI) Foundations — Oracle AI Mastermind — Outskill (Certificate of Completion) | Kaggle Learn — Intro to Machine Learning; Pandas MERN Stack Development — Sunbeam Infotech Pvt. Ltd. | Android Development — Microdynamic Software Pvt. Ltd. Research Internship — MES Wadia College of Engineering | Java Programming (Core Java, OOP); JavaScript Data Structures Using C | Machine Learning Specialization (Andrew Ng) — Coursera (in progress)
